ORGANIZATION OF THE CITY GOVERNMENT.

WEDNESDAY, JANUARY 4, 1882.

The members elect of the City Government having met for organization, agreeably to the provisions of the City Charter, the oath of office prescribed by law was administered to the Mayor elect, Charles M. Murphy, after which His Honor the Mayor, administered the oath of office to the following Boards, viz. ;

BOARD OF ALDERMEN.

THOMAS M. STEELE.
AUGUSTUS T. COLEMAN.
LEWIS B. LASKEY.
JOHN SCOTT.
JOSEPH B. QUAID.

BOARD OF COMMON COUNCIL.

Ward 1—CHARLES O. BAKER,
ALBERT M. CANNEY,
JAMES F. HORNE,

Ward 2—OSCAR F. KIMBALL,
WILLIAM W. CUSHMAN,
HENRY PRENDALL.

Ward 3—SUMNER W. HATCH,
GEO. H. PATTERSON,
TRISTRAM A. YOUNG.

Ward 4—JAMES W. BARTLETT,
HENRY E. PERRY,
BENJ. T. WHITEHOUSE.

Ward 5—MARTIN J. CRANNAN,
JOHN F. GORMAN,
JOHN HAUGHEY.

BOARD OF SCHOOL COMMITTEE.

JAMES M. HAYES.
CHARLES E. HALL.
CHARLES A. FAIRBANKS.
ITHAMAR W. BEARD.
GEORGE B. SPALDING.
ANDREW McGUINNESS.

Prayer was offered by Rev. Dr. Spalding, after which the Mayor delivered his Inaugural address, as follows:

MAYOR MURPHY'S ADDRESS.

Gentlemen of the City Councils:

Probably nothing in our history as a city excites more surprise in the minds of close observers, than the fact that many of the public improvements and artificial attractions of our city might have been secured in better form and at a good deal less expense in the early years of our municipal existence.

Within a few years the enterprise, boldness, and in some cases the audacity of younger towns and cities, no better off in point of natural advantages, have left us behind in the race for position and wealth. Of late, however, we have made ad-

vances, and the last census reveals a very considerable degree of progress. I do not hesitate to say that all of our increase, in excess of the slow, irregular growth peculiar to old settlements, is to be largely attributed to the rise and development of a more masculine spirit among our capitalists and business men. Many good people still continue to talk as if a city which relies upon its capacity to accommodate large numbers of skilled laborers, and its attractiveness to men of wealth and influence, ought to constantly keep its expenses down to as low a point as would be demanded in a condition of business depression. Not so have we secured our growth during the last ten years, and the reason is not far to seek. Men have come up in our midst, or been attracted by our natural resources, who have evinced more than just courage enough to pursue the certain, and the general public has caught the new feeling, and by such means as it found within its power to use, has aided with will and might. The obligation lies on us as citizens not to let this awakening die out for want of courage or careful study of the varying phases of business activity throughout the country. And if it shall unquestionably appear that as public officers you have a duty to perform in maintaining or increasing our local industries, I doubt not you will meet such demands with a largeness of judgment suited to the nature of the occasion. But while it is plain that we ought to pursue with diligence whatever shall be necessary to be done, still we owe it to ourselves as well as our constituents, to give evidence of our devotion to the public interests by practicing a judicious economy.

Promising to use my utmost endeavors to aid you in all attempts at saving the city from harm and adding to its resources, I will briefly touch upon sundry topics of pronounced importance, and leave all in your hands.

FINANCE.

Exclusive of the railroad liability, the city debt is not exces-

sive. But a feature, which ten years ago was deemed of great value, now operates to the detriment of the city.

The debt of \$126,165.60 stands against us in the form of six per cent. semi-annual bonds, part payable only in small yearly sums, and \$100,000.00 in about ten years. It appears that Savings Banks hold the major part of these bonds. Now, as it is impossible to redeem these bonds without the payment of a large premium, I suggest the expediency of providing for their ultimate extinction by creating a sinking fund. Of the balance now in the treasury, a part might be so invested, and such savings as it may hereafter be possible to make, yearly added to the fund. I would also advise a careful consideration of our railroad debts and credits with a view to securing a safe release from a form of obligation which experience has taught us cannot be prudently assumed by city or town.

The report of the Joint Committee on Finance, containing the Treasurer's report, will afford you information concerning last year's receipts and expenditures.

BUSINESS INTERESTS.

Of great importance to our city, and of some concern to a number of our neighboring towns, is the condition of our shoe interest. In the absence of a system of free railroad construction, competition has been at work for years in our State enlarging and vivifying favored points and neglecting others, until the progress of some of the oldest settled places is seriously impeded, and this leads me to say that no more practical question confronts the city of Dover to-day than, how shall the railroad discrimination, at present operating so adversely to its business interests, be removed?

Without discussing the point as to what extent a railroad corporation is free from government control, it may be safely said that its fares and freights ought to be, and may be made, reasonable fares and frieghts.

APPROPRIATIONS.

The last year has not been fruitful of costly enterprises. All departments have been kept substantially within the appropriations, except sewers and bridges.

It may not be unprofitable, or considered out of place for me to call your attention to the Superintendent's skillful and prudent treatment of our streets and highways, for it seems certain that a candid consideration of what has been accomplished, will enable you to see that the appropriation for highways should be made thirteen thousand and five hundred dollars, and that sidewalks and crossings at least five thousand dollars. Liberal expenditure and competent management for a few years will put these departments in better condition than ever known before.

Unless it shall be found necessary to add to the effective strength of the Police and Fire Departments, the sum of money required for their support will not exceed the provisions of last year. In my opinion a large sum might be judiciously expended on Pine Hill Cemetery. It may not be known to every member that we have a number of streets, some of them compactly built upon, which, having been dedicated, find no other record than a simple vote of acceptance. A suitable sum should be appropriated for procuring surveys and returns of such streets.

In regard to these matters I speak with a confidence that my remarks will be taken in the same spirit which actuates me in making them, and I so leave all for your consideration.

SCHOOLS.

Our schools and school houses have claimed, and received as usual, a large share of our annual taxes. I desire to renew my recommendation that a suitable building be provided for the accommodation of small children living in the vicinity of Sawyer Mills. It is cruel to oblige them to walk so far as the Locust street building. Another matter pertaining to this

department claims more than a passing notice. Without doubt our predecessors, who built the grand and substantial school houses of which we are so proud, supposed they had provided for pure air and an even temperature. The Board of Instruction calls for a proper system of ventilation for these buildings. Now, it is never wise or safe to cast aside or treat as absolutely unfounded an assertion made in good faith by respectable and intelligent people; and this is emphatically the case when the assertion is made that the children of our schools are exposed to wintry draughts and currents from open doors and windows, or to the desperate alternative of breathing foul and vitiated air. No use of doors and windows in rooms containing thirty to fifty children each will afford good and sufficient ventilation. Coughs, languor, nervousness, and palid faces follow such treatment. The reputation of our schools stands deservedly high, and many persons have made this their place of residence in order to secure the benefits of our schools, while educating their children. I commend this department to your generous care.

WATER.

At the beginning of the last political year I recommended the introduction of a larger supply of water. I regarded such a supply as essentially connected with the true interests of the city. I shall not at this time, however, ask for any action, but leave the matter to your discrimination and good judgment. Several objections have been made to any such undertaking, some general and some special in their application. The most prominent general objection is the possible danger of destroying the purity of our present supply of spring water. Few persons are unaware that most of us have drank considerable pond water for some time without serious complaint. More might be used, with proper filtering appliances. Also, it is claimed that capital and vested rights would suffer if the city were to take the business in hand of supplying the public with water. But the right to take private property for the public good does not con-

template the consideration of whether individuals might make money by retaining such property.

The question is whether the public requires special management and can do the work better than private individuals ; not whether certain people can profit by holding on to a grant which they can no longer administer to the satisfaction of the public. The fitness of City Councils for the exercise of such large powers as would of necessity have to be lodged somewhere, if a public system of waterworks be established, is a matter for fair and temperate discussion, but ought not to be considered as an objection to the main question. I do not feel satisfied that I was wrong last year, but enough has happened and is happening to make it probable that the whole matter will lie over for a number of years.

FIRE DEPARTMENT.

I am informed that the number of alarms in the past year has been twenty-four ; out of which the department has been dismissed without service eight times. Although the record is more unfavorable than that of some previous years, yet we have been fortunate. I have received a statement from the agent of the Cocheco Manf'g Co., that the city's leather hose, now in the keeping of the company, is unfit for use, and ought to be replaced by two thousand feet of approved rubber pattern. In this connection I will allude to the significant fact that there has been a lack of water at several fires. I have neither time nor inclination to analyse or compare the different explanations offered for such unfortunate occurrences. Whether the department fails to use the supply furnished, or if there be check apparatus used by the Aqueduct companies not under the control of the department, is an appropriate subject for municipal inquiry.

POLICE.

Good order has been maintained during the year, a large

per cent. of all stolen property has been recovered, and the expenditures have not exceeded the appropriation and receipts.

PAUPER DEPARTMENT.

This division of our government has received excellent care. From personal inspection and testimony received from others well qualified to speak upon this subject, it gives me pleasure to state that the treatment of the poor has been all that could be desired.

CITY HALL.

This building has, for the first time since its reconstruction, received some attention. It has been painted on the outside, and steam has been applied for heating purposes. I suggest that the inside be cleansed and painted this year.

EXEMPTION FROM TAX.

In the course of the year applications may be made to you for the exemption of manufacturing property from taxation. A due regard to the present and prospective welfare of the city, should lead you to a thoughtful consideration of such requests.

Gentlemen of the City Councils—I have thus briefly alluded to some of the questions which we shall have to pass upon during the present year. I will detain you no longer. Let us strive to discharge the duties we have assumed to-day, well and wisely.

CITY EXPENDITURES FOR 1881.

The expenditures in detail in each department were as follows:—

REPORT OF COMMITTEE
—TO EXAMINE—
POLICE COURT AND POLICE ACCOUNTS.

To the Mayor and Aldermen of the City of Dover:

The undersigned, appointed as a committee to audit the accounts of the Police Court and Police Officers of said city, from January 1st, 1880, to April 1st, 1881, having attended to their duties, would respectfully submit the following report :

The Justice of the Police Court has paid to the City Treasurer two hundred and sixty-six dollars, being all the money by him received belonging to said city.

The Clerk of the Police Court, since his appointment in January, 1880, has received for writs, blanks, complaints and warrants, and other fees of his office, (\$389.60) three hundred and eighty-nine dollars and sixty cents ; all of which has been paid into the city treasury.

We would earnestly recommend that said Clerk be instructed to keep a separate book, so that all the cases where the parties have been bound over or have appealed to the Supreme Court, may be traced to their final disposition with much more readiness than can now be done, and the different sums due said city from the County of Strafford can be ascertained at any time without delay.

The police officers during said time have made 479 arrests for the following causes, viz. :

Drunkenness,	233
Assault,	62
Violation of Liquor Law,	70
Keeping open Sunday,	6
Keeping open after hours,	10
Common Drunkards,	10
Disorderly Conduct,	7
Disorderly House,	3
Fast Driving,	4
Breaking and entering,	7
Obstructing officer,	2
Common brawl,	2
Larceny,	17
Profane Language,	3
Brawl and tumult,	8
Forgery,	1
Fornication,	2
Bastardy,	1
Selling worthless check,	2
Threatening language,	7
Horse stealing,	2
Obscene language,	2
Obtaining money under false pretences,	1
Breaking Window,	2
Aggravated assault,	2
Insane persons,	2
Arrested and returned to County farm,	3
Obstructing sidewalk,	2
Cruelty to animals,	1
Embezzlement,	1
Adultery,	2
Receiving stolen goods,	2

The above cases have been duly disposed of as follows :

Paid fine,.....	126
Owe fine,.....	18
Committed to jail,.....	56
Bound over to Supreme Court,.....	91
Appealed to Supreme Court,.....	16
Discharged without trial,.....	61
Discharged by Court,.....	31
Settled by parties and withdrawn,.....	2
On probation,.....	14
Given time to leave the city,.....	32
Disclosed,	11
Paid fine in part,.....	4
Delivered to out of town officers,.....	5
Sentence suspended,.....	7
Bound over to keep the peace,.....	5
Sent to Reform School,.....	1

(One of the above fines was paid after commitment.)

All money received by the Police officers for fines, costs, services and witness fees in both Police and Supreme Courts have been turned over to City Marshal Dame, and by him paid to the City Treasurer, as appears by the books of both the city and county treasurers ; and are as follows :

Received by the City Marshal,.....	\$1,606 62
Paid by the Marshal to City Treasurer,.....	1,609 47
Balance due the Marshal,.....	\$2 85

The above balance arises from the following reason ; from time to time the City Marshal under the direction of the County Solicitor paid car fare and other expenses, from his own money, which the County afterwards repaid, and which was received by the Marshal at the same time, with fees and costs belonging to the city of Dover, and in settling with the city he overpaid to the amount of \$2.85, which should be repaid to him, it being money paid by him out of his own pocket.

After a long examination of the books of the County Treas-

urer and of the late County Solicitor, we find that all money due from said County Solicitor has been paid to the Marshal and by him to the City Treasurer, thus settling all Court accounts between said city and county prior to the February term of the Supreme Court, 1881.

We desire to state further that we find the books of the City Marshal have been correctly kept, and every cent of the city's money received by the police officers has been honestly accounted for, and in all cases where arrests have been made by them, the disposition of the case can be plainly and easily traced until turned over to the county officers.

J. C. CAVERLY,
JOHN KIVEL.

In Board of Aldermen Sept. 1, 1881, accepted.

J. B. STEVENS, JR.,
CITY CLERK.

DOVER CITY GOVERNMENT FOR 1882.

JOINT RESOLUTIONS

—PASSED BY—

THE CITY COUNCILS IN '81.

A Joint Resolution Appropriating Money.

Resolved by the City Councils of the City of Dover :

SECTION 1. That the sum of fifty-nine thousand, one hundred and forty-eight dollars and fifty cents be raised this year, (1881,) by taxation, for the following purposes ; and the sums named are hereby appropriated to the several departments as specified below :

Highways,.....	\$12,500 00
Sewers,	1,800 00
Salaries,.....	3,200 00
Health,.....	200 00
Miscellaneous,.....	3,000 00
Support of Prisoners,.....	200 00
Fire Department,.....	6,000 00
Gas Lights,.....	3,600.00
*Police Department,.....	3,000 00
Evening School,.....	500 00

*And the earnings of the department.

Interest,.....	12,000 00
Schools, in excess,.....	4,698 50
Printing and Stationery,.....	750 00
Cemetery,.....	300 00
Pauper Department,.....	2,000 00
Repair of School Houses,.....	1,200 00
Cleaning School Houses,.....	200 00
Repair of Bridges,.....	1,000 00
Repair of City Hall,.....	1,500 00
Sidewalks and Crossings,.....	1,500 00
	<hr/>
	\$59,148 50

SEC. 2. That the foregoing sum of fifty-nine thousand, one hundred and forty-eight dollars and fifty cents, be collected in money by the Collector of Taxes.

Passed March 10.

A Joint Resolution providing for Revision of the City Charter and Ordinances.

Resolved by the City Councils of the City of Dover :

SECTION 1. That the Mayor, City Solicitor, and Ald. Hanson of Ward 2, be, and they hereby are, constituted a committee to prepare a charter which will contain, in a compiled and codified form, the original charter of the City of Dover and amendments to the same, with such changes and additions as may be necessary—and submit the result to the General Court at its next sitting, for legislation, and said committee is authorized to employ such assistance as may be necessary for the accomplishment of the work.

SEC. 2. That the City Solicitor, the Mayor, and the City Clerk, with such as the Board of Common Council may join, be a committee to revise, codify, and amend the ordinances of the city, and prepare the same for publication—and both com-

mittees shall report to these Councils before printing. Messrs. Farrar and Baker joined.

Passed April 7.

A Joint Resolution providing for Water on Cemetery.

Resolved by the City Councils of the City of Dover :

That the Joint Standing Committee on Cemetery is hereby authorized to expend a sum not exceeding five hundred dollars, for the purpose of carrying water from land of Jonathan Sawyer to tank in Cemetery. Meaning hereby to pay only for pipe and putting down same ; and the City Treasurer is hereby authorized to hire money for the same.

Passed June 2.

A Joint Resolution providing for repairs of Ward One and Four Ward Houses, and the Police Station.

Resolved by the City Councils of the City of Dover :

That the sum of two hundred and thirty-three dollars and thirty-six cents be appropriated out of any money now in the treasury, not otherwise appropriated, for repairs of Ward One and Four Ward Houses, and the Police Station.

Passed July 7.

A Joint Resolution providing Fire Department with Hose

Resolved by the City Councils of the City of Dover :

That the Joint Standing Committee on Fire Department be, and hereby are, authorized to purchase one thousand feet of serviceable hose for the use of the fire steamers, and the City Treasurer is directed to hire the sum of money necessary to pay for the same.

Passed August 13.

*A Joint Resolution in reference to the death of
President Garfield.*

Resolved—That the City Councils of Dover express the unanimous sorrow of the people of this city, at the tidings that the long prostration of the President of the United States has terminated in death. Profoundly moved by the cowardly crime of the assassin, they have painfully watched, with a whole people, the sickness and suffering of the illustrious victim; and with earnest solicitude, his brave and heroic struggle for life, his patient and manly endurance of pain, his Christian fortitude and hope.

Resolved—That the invaluable life of the deceased President nobly illustrates the possibilities which lie in American citizenship; in his early struggles while fatherless; in his education, acquired solely by manual and mental labor; in his consecration to his country as a soldier on the battle-field; in his services as a statesman in public affairs; in his leadership in the councils of the Nation; in the promise of an administration which would secure the highest blessings to his country; and in his genial qualities, his public virtue, and the christian integrity which pervaded his whole life.

Resolved—That the whole people appreciate as well the devotion, the tenderness, and fortitude of the honored wife, who battled so long by the bedside of the suffering husband, to whom also the wives and mothers everywhere send their profoundest sympathies, and for whom they earnestly ask the blessing of God.

Passed September 22.

*A Joint Resolution Appropriating an Additional Sum
for repair of City Hall.*

Resolved by the City Councils of the City of Dover :

That the sum of six hundred dollars is hereby appropriated

from any money in the treasury not otherwise appropriated, for the purpose of steam heating the city rooms in the City Hall building.

Passed September 22.

*A Joint Resolution providing for Payment of Repair Bills
on Washington Street Bridge.*

Resolved by the City Councils of the City of Dover :

That so much of eleven hundred and eighteen dollars and seven cents, as may be necessary for the repair of Washington street bridge, is hereby appropriated from any money in the treasury, not otherwise applied for the purpose herein named.

Passed November 3.

REPORT

—OF THE—

STREET COMMISSIONER

To His Honor the Mayor and the City Councils of the City of Dover:—

GENTLEMEN:—I herewith present a statement of receipts and expenditures for the year ending Dec. 31, 1881.

Appropriations for repairs of Highways,.....	\$12,500 00
For Sidewalks and Street Crossings.....	1,500 00
For Sewers,.....	1,800 00
Total Net Appropriations,.....	15,800 00

HIGHWAYS.

As soon as spring opened I commenced to scrape mud off the streets, especially those that I was intending to macadamize. The crusher was started April 11. Second street was the first to have stones—I took off more than fifty loads of mud and put on one hundred and eighty-nine loads of stone.

The following streets have been repaired with stone, viz :

Silver street from the railroad bridge to John Towle's house, near Arch St. Number of loads of stone put on, two hundred and

eighty. Washington St. 43 loads ; Main from School down over the hill on the Landing, 162 loads ; Pleasant 41, Court 29, Central 29, Fifth 50, New York 18, Baker 14, Franklin Square 15, Locust 29, St. John 15, Franklin 13, Hurd 43, Cochecho 49. First street has had the mud taken off and 156 loads of stone put on. I have put on this year on the south side of the river 437 loads of stone and on the north side 738, making in all 1175 loads of stone.

Streets that have been graded : I worked on Baker street with all the teams over a week ; Sixth, two weeks ; I worked on Mount Vernon beyond Hough street : I ploughed down the hill—it took a week ; I hauled gravel on Hough, Maple, Grove and Horne ; I made a sidewalk on Cross street from Sixth to Hurd's shoe shop ; on Horne street from Hough to Biddle's bake shop ; I have put on 300 loads of cinders on the north side of the river ; 200 loads on the south side, on sidewalks. I have graded Fayette street—put on 50 loads ledge scrapings ; Chestnut street down by the High school house has been graded, a sidewalk built, and stone gutter laid from the school house to First Street.

There are numerous other small jobs in all parts of the city, of which I have made no special account. Last winter was a bad winter to keep the roads and sidewalks in good condition for public travel. I worked night and day with the city teams breaking, and then could not keep them clean, and I had to hire other teams to help me when we had our hardest snow storms, and was obliged to have a large crew of shovelers. The out districts were the same ; they had to work hard to keep the roads passable, it drifted so ; it cost about three thousand dollars for breaking ; this includes the out districts as well as the city proper. Then came the rise of pay, which was all right, for the men in the city ought to have as much as the men get in the out districts, which is one dollar and fifty cents per day.

The fall rains have given me a good deal of trouble ; I have been obliged to hire other teams to help me out with my work ;

we have between forty and fifty miles of sidewalk to break in winter, and sand, and we have thirty miles of earth sidewalk to keep in repair in summer;—we had from five hundred to a thousand loads of cinders and gravel to keep the sidewalks in repair; this all comes out of the Highway appropriation. To break the sidewalks in winter and sand them, and keep them in repair in summer, will cost a thousand dollars a year, and there is no money appropriated for this work only as we take it out of the Highways. I think the appropriation for sidewalks should be large enough to have it charged to the Sidewalk department and not to the Highway, as heretofore.

PERMANENT SIDEWALKS AND STREET CROSSINGS.

Brick sidewalks have been laid on the following streets, viz: Cushing street in front of Mayor Murphy's house and lot; Silver street in front of Elisha R. Brown's lot; Atkinson street from John E. Butler's house down over the hill to Joseph A. Clough's, near St. Thomas street; St. John street in front of Dr. Lathrop's and Geo. Varney's lots; Chapel street from Charles Wiggin's store to Chase's lot; Third street in front of Cocheco Bank. Several other places have been repaired.

STONE CROSSINGS.

On south side of the river from City Hall to Strafford Bank; Locust street across Nelson street; N. H. House to old Court House; Central street across Waldron street; from First street to the factory gate; Nutter's block on the Landing to the opposite side; one on Second street across Chestnut; one from Morrill's Block to the curb stone opposite; and one on Franklin street across Fifth street. I have bought of Joseph S. Abbott, Freeman Babb, and L. L. Elder, 1491 lineal feet of twenty inch flagging stone. Of this I have laid on the south side of the river 571½ feet. On the north side of the river 919½ feet. I have laid three crossings over on the Turnpike out of the old stone taken up elsewhere.

SEWERS.

I have laid sewers on the following streets, viz. : Locust street from Summer street to the new street near the Locust street school house, a distance of 800 feet, pipe 12 inch capacity and four inlets for surface water. A sewer has been laid through Spring street to Pleasant street sewer, a distance of 400 feet, 12 inch capacity. One on Court street, 400 feet long, 10 inch pipe, and four inlets for surface water. Three hundred and fifty feet of 10 inch pipe has been laid on Forest street, and 3 inlets. A sewer has been put in on Broadway from New York street sewer to the small house back of Rackley's store, a distance of about 1100 feet, pipe 12 inch capacity from New York to Hurd street, and the rest is 10 inch pipe. I put in three inlets to carry off surface water. School street, 250 feet of 10 inch pipe and one inlet; Cocheco street, 96 feet 12 inch pipe, and 35 feet 8 inch pipe and one inlet; Silver street, from Elm to Atkinson, 250 feet 10 inch pipe, and 200 feet 8 inch from the street that goes down to Vittum's house to Lexington street, and one inlet corner of Lexington street; 200 feet 8 inch pipe laid on Cedar street, and one inlet corner of North Pine street; one inlet corner of Second and Chestnut streets; one on Sixth street, and one put in on corner of Locust and Silver streets. I have had 20 inlets set this year which took 10,000 brick. The new grate and base is much better than the stone and iron rods and they do not cost any more. I would recommend that we use them altogether, for they cannot be taken out and carried off as can the iron rods. I have paid for cement pipe this year, \$1,408.-02; for brick for sewers, \$70; for inlets, \$100. It left me but little to do the labor with, and I was obliged to over-run the appropriations. We have many places that have to be repaired every year. The old plank sewers that have been laid in the past have given me considerable trouble.

BRIDGES.

Washington street bridge has been thoroughly repaired this

year, and will not need anything more done to it for a number of years. The Central street bridge side-walk on the east side has been laid over new. The planking on the bridge is bad. The bridge at the county farm is in a bad condition, and needs looking after. The Watson bridge needs looking after, and also the Fourth street bridge. The bridges were looked after wholly by the committee this year.

The following sums have been expended according to the pay rolls and bills approved by me, viz. :

For repairs of streets and highways,.....	\$12,502 63
For permanent sidewalks and stone crossings,	1,509 61
For sewers,.....	2,502 62
For bridges, bills approved by the committee,	2,308 50

I beg leave to say, in closing my report, that I have given careful supervision to all the work in each department, so that the money might be expended judiciously. The duties of Street Commissioner are attended with difficulties, not so much on account of the labor to be performed as to satisfy the people, whose servant I am, that the work has been done where it was most needed. In discharging these duties I have had the co-operation of the Mayor and Committee on Streets, and the work has been done where in our judgment we thought best.

Respectfully submitted,

SAMUEL F. HURD,

STREET COMMISSIONER.

In Board of Aldermen January 3, 1882, accepted and ordered to be printed.

J. B. STEVENS, JR., City Clerk.

In Common Council January 3, 1882, concurred.

E. H. TWOMBLY, Clerk.

REPORT

—OF—

THE CHIEF ENGINEER.

To His Honor the Mayor, and the City Councils of the City of Dover:

In presenting this, my first annual report, as Chief Engineer of the Fire Department of Dover, I desire gentlemen, first of all, to thank you for your hearty co-operation with me in my humble endeavors of the past few months, to add to the efficiency of our Fire Department. Particularly am I indebted to your very active committee on Fire Department. Many kindly hints dropped by our City Clerk have been of much service and are not forgotten. The City Marshal and police officers have always been my valued assistants. The whole Fire Department have stood shoulder to shoulder with me, conspicuously so, my brother engineers.

Allow me briefly to call your attention to what has been done during the past few months, to such changes and additions as seem to me would render the service still more effective, and also to the present condition of the several companies, and the various apparatus, reservoirs, houses, etc.

MEMBERSHIP.

The firemen of Dover number seventy, exclusive of the Hose Company; counting that organization the number swells to one hundred and thirty men, as follows:

Chief Engineer and three assistants, one Hook and Ladder Company of twenty-five men, two Steam Fire Engine Companies of eighteen men each, one Steam Fire Engine having two men in charge, one Hose Company of sixty men, and also three drivers.

APPARATUS.

The apparatus of the Fire Department consists of three Steam Fire Engines, with hose carriages attached; two Hand Engines; one Hook and Ladder Truck; one horse Hose Carriage, and one Supply Wagon. I give below a schedule of this property, showing its condition.

STEAM FIRE ENGINES.

Steamer No. 1 was built by the Amoskeag Manufacturing Company, and put into service in 1865.

Steamer No. 2, built by the same manufacturers, was put into service the same year.

Steamer No. 3, built by the same manufacturers, was put into service in 1875.

HAND ENGINES.

Tiger No. 2, built by Hunneman, was put into service in 1847.

Cataract No. 4, built by Hunneman, was put into service in 1841.

HOOK AND LADDER TRUCK.

The Hook and Ladder Truck was built by B. F. Prebble & Co., and put into service in 1868.

HOSE CARRIAGE.

R. N. Ross Hose Carriage was built by the Amoskeag Manufacturing Company, and put into service in 1865

SUPPLY WAGON.

This is a two-horse wagon that is used to carry supplies to the Steam Fire Engines, and is an heir-loom of uncertain age.

All the steamers are in good condition and reliable. The Hook and Ladder Truck, the Hand Engines, and the one-horse Hose Carriage are all in good working order. The supply wagon has about outlived its usefulness, and I would recommend the purchase of a new one.

HOSE.

The Fire Department has 8,500 feet of hose now in use, of which the Cocheco Manufacturing Company have 2,500 feet, and 1,000 feet are for use at Sawyer Mills. During the past year about 3,000 feet of leather hose have been tested, and being found unfit for use, have been condemned, and sold. During this period, 1,000 feet of new hose have been added to our equipment. I would recommend the purchase of 2,000 feet for the city's wants for 1882.

HOUSES.

The Engine Houses are all in very good condition save the Hook and Ladder House, which needs repairing very badly. During the past year the Steam Fire Engine House has been extensively repaired and thoroughly painted inside and out. The stable facilities have also been largely increased.

RESERVOIRS.

The reservoirs of the city are located as follows :

One on Mt. Pleasant street, One on Portland street,

One on Pleasant street,	One on St. John street,
Locust “	Chapel “
Silver “	Franklin “
Central “	Chestnut “
Hale “	Grove “
Walnut “	New York “
Court “	Two on Washington street,
Two on Broadway,	at Garrison Hill.
Payne street,	

There are also places for the engines to take water as follows: Fourth Street Bridge, near High School House, Central Street Bridge, at the junction of Waldron and Green streets, at David L. Drew's Pond; on Locust street near Unitarian meeting house there are two water plugs set; two water plugs set on Atkinson street near the residence of Major Joseph S. Abbott.

Further along in this report I shall have something to say in regard to the urgent demand for more reservoirs in some sections of the city.

FIRES AND ALARMS.

From January 1st, 1881, to January 1st, 1882, there were twenty-four fires and alarms in the city, as shown in a table appended to this report.

REVIEW.

Since my elevation to my present trust, some changes have been made in the management of the Department, that I think have been of benefit. Among the new “rules and regulations” are these two:—“Roping in, in the immediate vicinity of the fire,” and “using only such an amount of water as is really necessary to extinguish and prevent the spread of fire.” It can readily be seen that in time of fire there is a great advantage in keeping back the crowd and give the firemen room to work in, so that this course is a benefit to the service, also prevents

sneak thieves from plying their avocation, and a protection to property. In regard to the use of water at fires, I would say that it is a well known fact that in far too many cases the damage to a building by fire is trifling compared to injury caused by the ravages of water.

The Tiger Engine Company is a thing of the past. It was disbanded because it was deemed a useless expense. Without the slightest disparagement to the gallant boys that have run with this machine, it is undoubtedly true that their work is done better by the Steam Fire Engine Companies.

This action on the part of the City Government results in a saving of about twelve hundred dollars per year.

RECOMMENDATIONS.

I have already spoken of the imperative need of a new supply wagon, recounted the purchase of 2,000 feet of hose for use during 1882, and have told you that the Hook and Ladder House needs repairing. It occurs to me that the pair of horses that belong exclusively to the Fire Department, and which are in the stable in harness all the time, should be provided with swinging harnesses. They are much more handy in case of a fire, and greatly relieve the horses. I am of the opinion that more reservoirs are needed on the south side of the river. The reservoir at the corner of Washington and Belknap streets is not at present connected with any water supply, there being no appropriation for that purpose. The reservoir on Payne street is in bad condition; an appropriation should be made to put both the reservoirs in good condition. I suppose that no part of the city is so poorly protected as the upper end of Washington street and the vicinity. It seems to me that the running water in Page's Brook could be fed into a reservoir at the head of Washington street, at a small expense.

If in the future, more water should be needed on the line of Central street, between the City Hall and the "Corner," I would suggest that a main from David L. Drew's pond could be brought to Central Square.

CONCLUSION.

Once more gentlemen, thanking you for your past kindness, let me bespeak your continued interest in the welfare of the Fire Department. Yours very respectfully,

CHARLES F. DEAN,

CHIEF ENGINEER.

Respectfully submitted,

JOHN S. DAME,

CITY MARSHAL.

In Board of Aldermen January 3, 1882, accepted and ordered to be printed.

J. B. STEVENS, JR., City Clerk.

REPORT

—OF THE—

JOINT COMMITTEE ON SCHOOL HOUSES.

To the City Councils of the City of Dover :

We have the honor to submit herewith a report of the expenditures in the department entrusted to our care :

The annual appropriation was fourteen hundred dollars. We have shingled the School street building, painted in part the Belknap street, St. Thomas street and Locust street buildings, thoroughly repaired all the furnaces, dug up the concrete gutters about the houses and repaired the same, made changes in the Washington street building, and attended to divers little jobs.

Two hundred dollars was set apart for cleansing the different rooms ; two hundred and fifty dollars will be required for this purpose, if the work be well done.

We would call attention to the danger threatening the School street building from cutting away the bank in the rear ; also to condition of the fence and bank west of the Belknap Grammar School.

The various school buildings are now in a tolerably fair state

of repair, but it is not likely that so many buildings used by so many persons, can be kept in good repair on an average for the amount of this year's appropriation.

There has been a good deal of complaint by parents in regard to the methods adopted by teachers to ventilate their rooms. The windows and doors are frequently opened and many cases of sickness are clearly traceable to this practice; besides, after a thorough cooling off the janitors are immediately called upon for increase of heat, so the furnaces are injured and expense considerably increased. Suitable ventilating apparatus ought to be provided.

We would recommend the raising of seventeen hundred dollars for the present year.

Respectfully submitted,

CHARLES J. MORRILL,

ORRIS W. FARRAR.

JOINT STANDING COMMITTEE

ON SCHOOL HOUSES.

Dover, January 2, 1882.

In Board of Aldermen, January 3, 1882, accepted and ordered to be printed.

J. B. STEVENS, JR., City Clerk.

In Common Council January 3, 1882, concurred.

E. H. TWOMBLY, Clerk.

REPORT

—OF THE—

OVERSEER OF THE POOR.

To His Honor the Mayor and the City Councils of the City of Dover:—

GENTLEMEN—I herewith submit the following report as Overseer of the Poor of the City of Dover, for the term ending January 5, 1882.

Cr.

By paid for Support of City Paupers,	\$1,958 77
“ “ “ County Paupers out of County House,	2,597 18
	\$4,555 95

Dr.

To received from City of Dover,	\$1,400 00
“ “ “ County,	2,597 18
“ Balance due Overseer,	558 77
	\$4,555 95

Respectfully submitted,

GEO. P. DEMERITT,

OVERSEER OF POOR.

We, the undersigned, have examined the books, accounts and vouchers of Geo. P. Demeritt, for the year ending January 5, 1882, and find the same correctly set forth in above balance sheet. We further find that there is due from the City of Dover to the said Geo. P. Demeritt, Overseer of the Poor, the sum of (\$558 77) five hundred and fifty-eight dollars and 77 cents.

Dover, January 16, 1882.

[Signed]

CHAS. M. MURPHY.
W. W. CUSHMAN,
JAMES W. BARTLETT,
THOMAS M. STEELE.

REPORT

—OF THE—

CITY SOLICITOR.

*To His Honor the Mayor, and the City Councils of the
City of Dover:*

GENTLEMEN—I herewith respectfully submit my report as
City Solicitor for the year 1881 :

When I entered upon my duties there were pending in the
Supreme Court, three suits, all of which have been settled, as
follows :

Almira A. Ham, for damage caused by slippery sidewalk.
Claimed \$10,000 00 ; settled for \$1,030 00.

Harriet S. Clay, for damage caused by grading Sawyer school
house lot. Claimed \$500 00 ; settled for \$75 00, with an
understanding that she is to give a release to the city from
any further claim from the same cause, which release we have
been unable to get signed as yet. There seems to be some
misunderstanding between Mrs. Clay and her counsel in the
matter.

Samuel P. Demeritt, for damage done horse on highway.
Claimed \$100 00 ; settled for \$25 00.

In view of the prejudice which an ordinary jury seems to have against a corporation, I believe the above settlements to have been very favorable to the city.

The following actions are now pending, having been commenced during my term of office :

County of Strafford against the city, which is a claim for board of prisoners at the jail. The amount in controversy is about \$200 00. Petition of the City of Dover for the discontinuance of a part of First Street. This action was referred to the County Commissioners, but as one of them is a citizen of Dover, he is disqualified to act, and the Court has left it to the counsel to agree upon some one to take his place. I have several times urged the matter upon the opposing counsel, and have been as many times put off with the remark that he would consult his parties. It is very important that this action be brought to a speedy close, but it has been considerably impeded by the order leaving the choice of the third man to the counsel, and there is no doubt a desire on the part of the B. & M. R. R., the only party opposing, to delay as much as possible, hoping no doubt thereby to kill the project.

Petition of Dover for the establishing of the line between Dover and Rollinsford; referred to Joseph A. Stickney of Somersworth, and Charles A. Foss of Barrington. This action is ready for a hearing at any time.

Clorinda Leighton, claim for damage by reason of a slippery sidewalk. Amount claimed \$500 00. The city knows but little about this case, but I think a settlement can be made for a small sum.

The following claims have been filed against the city, on which suits have not been brought :

Samuel Stevens, from grading Sawyer School house lot. Damage claimed \$500 00.

William H. Fernald, damage to himself and team on the Tolend road, \$3,000 00.

Fred Brown, damage to himself by lumber across First street, \$500 00.

It will be necessary to have the jury settle the damage in this case, as the city has a right of action against the man who left the lumber.

Hannah M. Ellis, damage done by falling on Middle street.
Claim, \$100 00.

John Littlefield, for horse drowned at Willand's Pond, \$50.

Respectfully submitted,

J. C. CAVERLY,
SOLICITOR.

VALUATION AND TAXES, 1881.

To the City Councils of the City of Dover:

The real and personal estate, including polls and all property taxable by the City Assessors April 1st, 1881, and according to their valuation, is..... \$7,575,380 00
 The valuation of above in 1880 was..... 7,368,600 00

Gain on Polls in 1881, seventy-four at \$100 each..	\$7,400 00

REPORT

—OF THE—

JOINT STANDING COMMITTEE ON FINANCE.

To the Honorable City Councils of the City of Dover:

The undersigned have the honor of presenting their annual report for the financial year which terminated Dec. 31, 1881:
 Cash balance of 1880 was..... \$30,948 04
 Cash received from taxes and other sources, particularly exhibited in the Treasurer's report,. 128,171 44

\$159,119 48

The expenditures were as follows:

State Tax,.....	\$17,660 00

Reservoirs,	2,009 55			

Annexed to this report is the City Treasurer's report, and a statement from the Board of Assessors.

We have examined the annexed report of the Treasurer, and the books, checks, bonds and cash in his charge. We find his books plainly and correctly kept, his accounts accurately cast, and each payment supported by a suitable voucher. We have also examined the sources from which the income of the city have been derived, and are satisfied that he has charged himself with the whole amount paid into the treasury.

We have also examined all appropriations, vouchers, receipts and approved bills in the City Clerk's office, and compared the orders and contracts of the standing committee on

claims, and the Mayor's check book ; and find the accounts correctly cast, all bills approved and checks properly issued.

Respectfully submitted,

[Signed]	CHAS. M. MURPHY, F. B. WILLIAMS, CHARLES C. DORR,	} JOINT STANDING COMMITTEE ON FINANCE.

Respectfully submitted,

FRANKLIN FREEMAN,

CITY TREASURER.

We, the undersigned, certify that we have examined the foregoing accounts of Franklin Freeman, City Treasurer, for the year ending January 2, 1882, and have also examined the accounts, with the vouchers in the office of the City Clerk, and find the same correctly cast and properly vouched.

[Signed,]

CHARLES M. MURPHY,	}	JOINT STANDING
F. B. WILLIAMS,		COMMIT-
CHARLES C. DORR.		TEE ON FINANCE.

HIGHWAY DISTRICTS.

ESTABLISHED BY CITY COUNCILS, MARCH 20, 1865.

Resolved.—I. That Highway District No. One be extended to the junction of Back River and Durham roads.

II. That Highway Districts Nos. Two and Three be added to and included in Highway District No. One.

III. That Highway District No. Twenty-two be extended to the large Elm tree east of E. Faxon's house

IV. That so much of Highway District No. Twenty-three as runs from Rebecca Pinkham's gate to the turn of the road near Andrew T. Roberts' dwelling-house, be disannexed from said District No. Twenty-three, and annexed to and made part of Highway District No. Fourteen; and so much as runs from the turn of the road near the dwelling-house of Samuel H. Hanson to Nathaniel Carlton's dwelling-house, be disannexed from said District No. Fourteen, and annexed to and made part of Highway District No. Twenty-three.

V. As established September 19, 1872. That so much of Highway District No. Eight, as lies between the junction of Sixth and Grove streets and the westerly end of the brick

house, owned by John B. Hull, be disannexed from the said District No. Eight, and added to and made part of Highway Districts Nos. One, Two and Three.

DISTRICT NO. 1—Shall embrace all the streets, lanes and alleys in the compact part of the city, also Locust (formerly High) street to its head, Arch Street, Silver and Washington streets to their junction with Arch, Fourth to its junction with Tolend road, Brick street to its junction with Grove street, Franklin street to its junction with Chestnut street at the house of Capt. Porter, the Rollins road to its junction with Fresh Creek road, the Turnpike to Rollinsford line, Rogers street to the Gulf road west of Cushing's Mills, Payne street to the culvert beyond Platt's Hill, Mt. Pleasant to cross road to Neck road near James Caton's house, Pleasant street to John Merve's house and to head of Locust street.

DISTRICT NO. 2—Shall begin at Cushing's Mills, thence to James McDuffee's gate, the old road by Capt. James B. Guppy's to Fresh Creek road, and Fresh Creek road east to the Rollins road to Rollinsford line.

DISTRICT NO. 3—Shall begin on Franklin street at the house of Capt. Porter, near the corner of Chestnut street, thence to the house of Levi Sawyer on Garrison Hill, including the Fresh Creek road, west of the Rollins road.

DISTRICT NO. 4—Shall begin at the house of Levi Sawyer on Garrison Hill, thence to Gage's Hill and to the junction of Rochester and Gt. Falls road, by Mr. Haley's house to Rollinsford line, and by George Page's house to Thos. Carrier's.

DISTRICT NO. 5—Shall begin at Somersworth line near Henderson's house, thence down to Gage's Hill by both roads and to the junction of the Rochester and Gt. Falls road to Somersworth line.

DISTRICT NO. 6—Shall begin at Somersworth line on Blackwater road, thence to the Rochester and Somersworth lines.

DISTRICT NO. 7—Shall begin at Reyner's brook, south of David Sargent's house, thence by said Sargent's house to Roch-

ester line ; also the road leading by the school-house to the railroad crossing, and the road to Moses Farnham's.

DISTRICT NO. 8—Shall begin at the junction of Grove and Brick streets, thence by the house of Ezra Kimball to Indian brook ; also the road by Richard Kimball's house to the house of Mr. Fuller, thence to the railroad crossing near the Whittier bridge ; also the Upper Factory road, from the school-house to the south side of the bridge.

DISTRICT NO. 9—Shall begin at Indian brook near the house of Oliver S. Horne, thence by the house of Joseph W. Bennett to the railroad crossing on the cross road, and to the railroad crossing near the Almshouse, and by the house of Paul Horne to the house of Moses Farnham.

DISTRICT NO. 10—Shall begin at the railroad crossing near the Almshouse, thence by the house of Timothy H. Snell to Rochester line, the road leading to John Trickey's farm, and the cross road by the house of Horace Kimball to the railroad crossing.

DISTRICT NO. 11—Shall begin at Dover Point, thence to the junction of the roads near the house of the late Jeremy Roberts.

DISTRICT NO. 12—Shall begin at John Meserve's house, thence to the bridge below Stephen Austin's house.

DISTRICT NO. 13—Shall begin at the junction of the roads near the house of the late Jeremy Roberts, thence to the red school-house, and main road to and across the bridge below Stephen Austin's house, with all the cross roads.

DISTRICT NO. 14—Shall begin at Amaziah Brownell's house, thence by the house of Nicholas Varney to Nathaniel Carlton's house and the Cowan road.

DISTRICT NO. 15—Shall begin at the culvert at Platte's hill, thence by Samuel Hanson's 2d, to the old road and the Amos Burrows road.

DISTRICT NO. 16—Shall begin at the house of James Wentworth, thence to Spruce Lane, the David and Samuel Tuttle roads, the new road to Reynold's bridge, and the road to Madbury line.

DISTRICT NO. 17—Shall begin at the head of Locust street, thence to Spruce Lane, the Mast road to Reynold's bridge, the Drew and Spruce Lanes.

DISTRICT NO. 18—Shall begin at the Madbury line, thence by Simon J. Torr's house to Dunn's bridge, the Mast road to Reynold's bridge, and the Pudding Hill to Madbury line.

DISTRICT NO. 19—Shall begin at the house of Joshua Trickey, thence by the house of William Twombly to Madbury line, and from said road by Richardson's Mill to the Durham road, and then from said road to the farm of Joseph Bailey, and from said road to the Hanson shop (so-called.)

DISTRICT NO. 20—Shall begin at the house of Robert Cristie, thence to Madbury line by J. Cook's house, and to Madbury line by the house of J. F. Kelley, thence on cross road to the house of Wm. W. Wiggin, and on cross road by the house of Joseph Bailey to the farm of O. K. Hayes.

DISTRICT NO. 21—Shall begin at the junction of the roads near the house lately owned by H. G. Otis, thence by the house of Ephraim Ham to Ebenezer Faxon's blacksmith shop, and both cross roads leading from said road across the Whittier bridge to the railroad crossing; also the cross road to Wm. W. Wiggin's, and the cross road to the Upper Factory bridge.

DISTRICT NO. 22—Shall begin at Ebenezer Faxon's blacksmith shop, thence by the house of J. Frank Brawn to Barrington line, the road to Rochester line, the road to Madbury line, and cross road over the Watson bridge to the railroad crossing.

DISTRICT NO. 23—Shall begin at the junction of the roads near the house of Andrew T. Roberts, thence by Ivory Paul's house to the junction of the roads near Samuel H. Hanson's house, and the cross road to Mrs. Pinkham's.

DISTRICT NO. 24—Shall begin at the Eliot Bridge, thence over the new and old road to the brook by Stevens & Wiggin's glue-works; the cross road to Portland street, and the Creek road to Rollinsford line.

PARTICULAR NOTICE

To Persons having Claims against the City.

CITY CLERK'S OFFICE, }
City of Dover, April, 1882. }

Persons having claims against the City should carefully note the name of the individual who orders the article or service, and should inquire to what department the charge should be made.

When there are charges belonging to different departments, separate bills must be made, including only charges belonging to each department. What these are may be readily seen by reference to the foregoing accounts.

Unless this is done, the claimant will be put to the trouble of making out his account the second time.

The claimant should then have the bill approved by the person who authorized the charge, and then presented to the City Clerk.

All bills thus prepared and delivered to the Clerk at any time *during* the month, will be laid before the Committee on Accounts at their next meeting, which is on the first Tuesday of each month, at 7 1-2 P. M. Bills not thus prepared and delivered, will lie over one month.

JOHN B. STEVENS, JR., CITY CLERK.
